# Notes for My Paper

Don't forget to include examples of topicalisation.

(1)   Topicalisation from sentential subject:
      a John$_i$ [a kltukl [el **l**-oltoir er ngii$_i$ a Mary]]
      John, (it's) clear that Mary loves (him).

## How to handle topicalisation

I'll just assume a tree structure like ().

(2)   Structure of A$'$ Projections:

```
            CP
          /    \
      Spec      C'
              /    \
            C    SAgrP
```

## Mood

Mood changes when there is a topic, as well as when there is WH-movement.
*Irrealis* is the mood when there is a non-subject topic or WH-phrase in Comp.
*Realis* is the mood when there is a subject topic or WH-phrase.
